■ Slops collection

A single point of contact ensures seamless coordination across every port.

OPERATIONS DESK 24 / 7 / 365

Ten in-house capabilities on the water

Spill containment and emergency response

Rapid deployment of containment booms for oil spills. Teams mobilise immediately.

Luxury dock and vessel fendering

Premium fendering systems for commercial vessels, offshore units and yachts.

Premium underwater services

Hull cleaning, underwater welding, propellers and thrusters, structural inspections.

Yokohama-type fenders and hoses

Floating pneumatic fenders of 1.5 × 3.0 m and 3.3 × 6.5 m, with full technical support.

Marine lubricants delivery

Drums, pails and bulk, on barges with direct hydraulic transfer systems.

Marine chemicals and gases delivery

Oxygen, acetylene, nitrogen, cleaning chemicals and water treatment chemicals.

Beyond agency work, Linde operates its own fleet and equipment for emergency response, cargo transfer, underwater work and onboard supply across all five ports.

High-standard lightering (STS)

Ship-to-ship cargo transfer with crews supporting the Mooring Masters.

Commercial and recreational towing

Emergency towing, dock-to-dock transfers, fuel delivery and jump starts.

Professional salvage operations

Vessel recovery, tow-off, debris removal and emergency stabilisation.

Advanced pumping services

Fuel, ballast water, grey and black water, bilge and chemical pumping.

COMPLIANCE

All underwater services comply with major international classification societies, and every delivery follows strict international safety standards and maritime regulations.
